

SUN VALLEY 505

WHETHER YOUR STYLE IS MODERN OR RUSTIC, THIS DELIGHTFULLY UNOBSTRUCTED 505 SQ. FT. OF LIVING SPACE IS AT HOME NESTLED AMONG THE ASPENS HIGH IN THE MOUNTAINS OF COLORADO OR RESTING NEAR A QUIET STREAM IN THE BLUE RIDGE MOUNTAINS OF VIRGINIA. THIS ATTRACTIVE AND INEXPENSIVE STRUCTURE CAN BE YOUR EXCITING DREAM HOME AWAY FROM HOME. THE O'DOME ONLY AWAITS YOUR IMAGINATION.

O'DOME

O'DOME

The O'DOME is the most exciting new leisure house in a generation! If you think you can't afford a modern, stylish, second home, take a second look! You can live in your O'DOME on a lot in woods, on your favorite piece of lakefront, or next to a good ski slope. You will find it a spacious, low-cost, comfortable, maintenance-free house with a whole range of new materials and ideas for relaxed living. Live in style at a price you can afford!

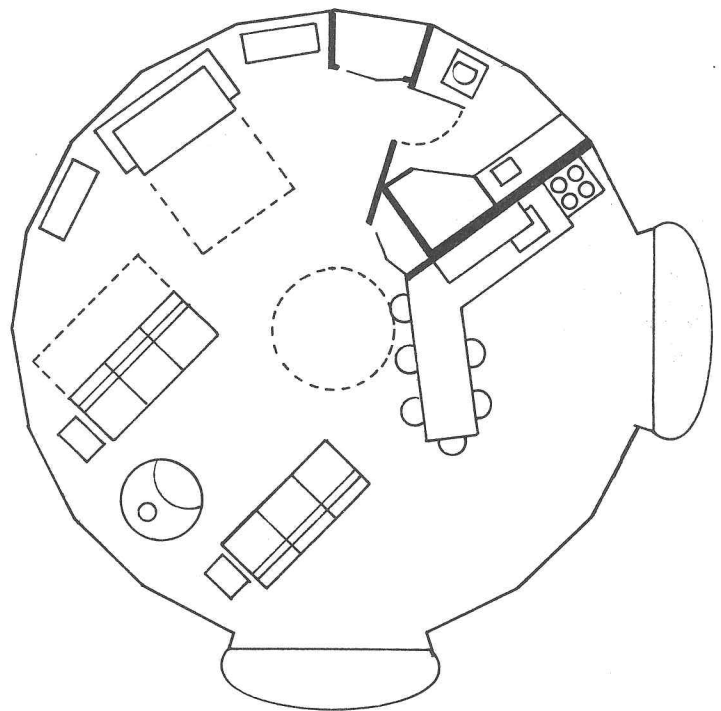

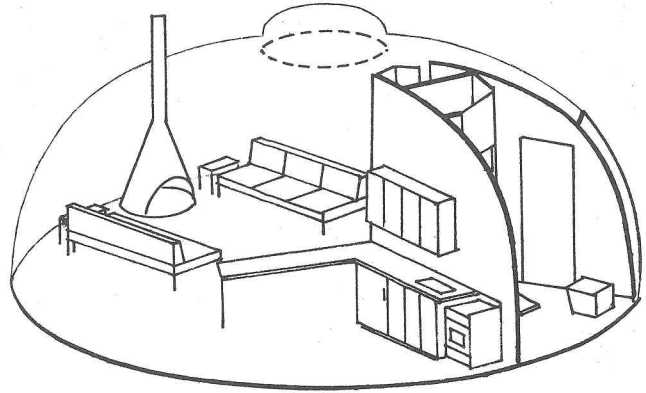

Let nature dish it out. Wind, rain, snow, sleet, hail, or scorching sun, the O'DOME can take it. Because it's built to last. Built with 2 layers of tough, durable fiberglass with an inner core of insulating urethane foam. Built to resist scratching, abrasion, impact, rot, termites, or any other form of punishment.

The SUN VALLEY 505 has been designed as a studio, although more domes may be added to create even more space.

The basic 25' O'DOME consists of 18 wall panels with 1 standard sliding glass doorway (8' wide x 6'9" high) with fiberglass shroud and a 5' diameter translucent skylight with ventilator, and encloses 505 sq. feet of space. This fiberglass unit weighs approximately 2000 pounds.

The O'DOME is available in standard colors of blue, green, and white. The O'DOME may be ordered with alternating colors, as well as with oval windows, base panel vents, and additional doorways.

NOTE: All necessary hardware is included with the O'DOME. TSI will also supply, upon request, site preparation drawings for suggested wooden decks.
