Dear Chuck!

In reply to your letter August 26th I fully understand your position being left in the cold re deliveries, and I am grateful for your thought to contact me.

As I told you we had a promissory note due last month on Futuro Corp., Philadelphia and, as far as I can see, there seems to be a possibility to transfer the rights of our design patents to you, in case this note is not paid.

May I ask you, how a legal interpretation of following term would be

"2. Exclusivity

- A. Subject to the terms and conditions of this Agreement, Licensor grants to Licensee the exclusive sales rights for the Futuro House in the Territory. The Licensor shall grant no other sales rights, technical information and/ or molds or any other data relating to the Futuro House in the Territory. All inquiries regarding the Futuro House received by the Licensor relating to the Territory shall be immediately forwarded to the Licensee."

Re your proposal for a license we would be interested to discuss the possibility based on the conditions you suggest, in other

words more or less a transfer of Leonard's agreement to you whereby you would undertake to fulfil the agreement as originally agreed. Canada, however, is not included in the US agreement and we have another licensee in Montreal.

As it seems that my business with other contacts in US will be done in Finland (the gas-stations) I would be grateful if you could visit us, as this would be the fastest way and I feel it would be of interest to you also to discuss other recent developments in this field.

Would you therefore inform me if a visit is possible preferably week 41 or later (Oct 5th- 9th), as by then I feel a few questions will be solved.

I look forward to your reply and hope we will meet in a few weeks time,

With best regards,

C.J. Olander
